

The Pius XI Catholic High School Visual Arts program is seeking an artist/instructor to teach all foundational aspects of ceramics including general hand building techniques, wheel throwing and glazing, and a working knowledge of operating a clay studio.

Additional skills desired could include: drawing, painting and technology (i.e., 3D printing, Glowforge)

Responsibilities include: curriculum development, lesson planning, maintaining and running the ceramics studio: mixing and reclaiming clay, preparing glazes, firing, and kiln/studio upkeep.

This is a full time position with 3 sections of tech that requires a working knowledge of 3D printing.

Grade Level: 10-12

Requirements:

BA or BFA in Ceramics or Art Education with an emphasis in ceramics

Art Portfolio

High school or college teaching experience preferred. A working knowledge of 3D printing.

DPI License preferred

To apply, submit resume, letter of interest, and college transcripts to pkovochich@piusxi.org
